

Solar Energy Trade Shows
225 Reinekers Lane, Suite 680
Alexandria, VA 22314

WHY YOU SHOULD ATTEND

- » **Grow your business:** Opportunities to expand in the U.S. market with help from the International Buyer Program (a Department of Commerce initiative).
- » **Create national and international relationships:** Connect with industry vendors and professionals from the U.S. and around the world as they showcase their newest products and services.
- » **Learn from the best:** Peer-led educational programming designed to exchange ideas, share lessons learned, and provide solutions for your business.
- » **Networking at every turn:** Unique networking opportunities that allow you to solidify your current relationships and build new ones.

If you only go to one conference this year, make it SPI.

EARLY BIRD RATES NOW AVAILABLE AT:

All proceeds from SPI go right back into the industry. What does this mean? It means registering for SPI funds the year-round research and education provided by the two organizations as well as SEIA's advocacy efforts. Better yet, members of national SEIA and SEPA receive discounts to attend SPI! Discounted registration rates are available for those members in good standing for SPI 2017.

SEIA AND SEPA WORKING FOR YOU

“There were so many different aspects of the solar industry all brought together in one place. I am already preparing for 2017!”

SOLARPOWER[®] INTERNATIONAL

ES ENERGY STORAGE INTERNATIONAL

Fusing Solar Energy and Technology for the Future

September 10-13, Mandalay Bay, Las Vegas, NV

Solar Power International (SPI) is the largest, fastest growing and most awarded solar trade show in North America. Powered by the leading solar organizations, the Solar Energy Industries Association (SEIA) and the Smart Electric Power Alliance (SEPA), the event draws over 18,000 attendees and 650 exhibitors from around the world. With its breadth of industry experts sharing their knowledge and exhibitions from the industry's pacemakers, SPI is the leader among solar trade shows.

In 2017, SPI is expanding its footprint to include Energy Storage International (ESI), Hydrogen + Fuel Cells North America, and the Smart Energy Microgrid Marketplace as part of North America Smart Energy Week. The co-location of four events, including SPI, gives attendees and exhibitors the ability to network and learn from an extensive alliance of renewable energy leaders.

POWERED BY

18,000+ Solar industry professionals

Over **24 hours** of dedicated B2B networking

650+ Exhibitors

80% of attendees have buying power

115 Energy storage exhibitors

30% of exhibitors are international, representing **30** different countries

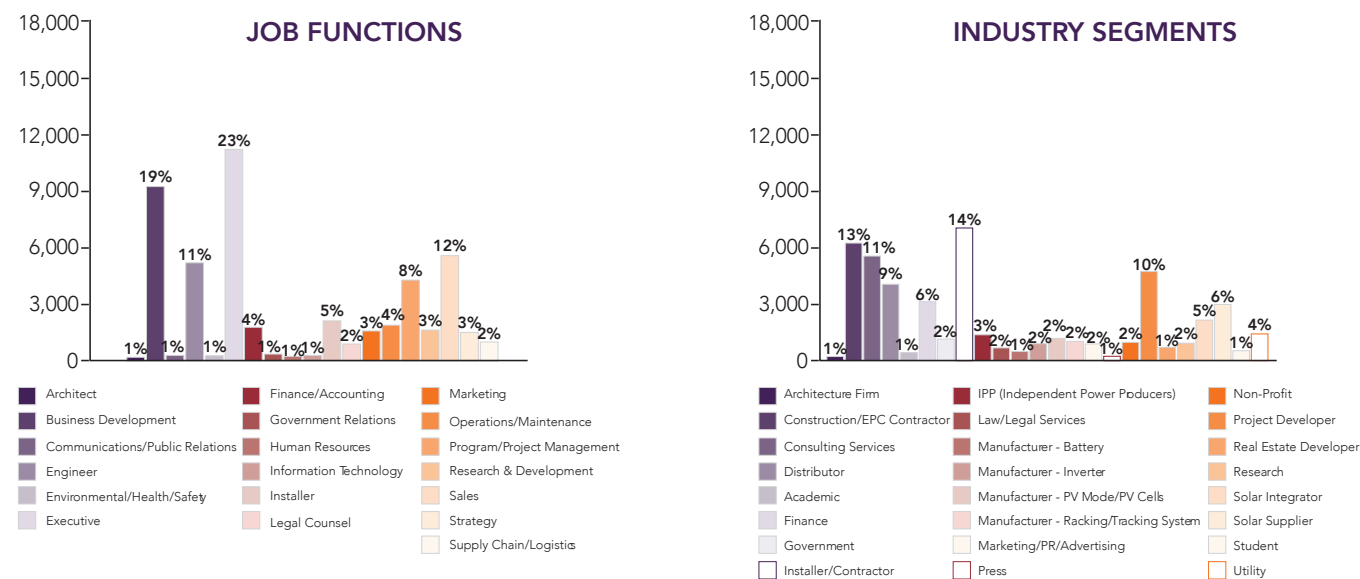

Attendees from more than **110** countries, which make up **21%** of total attendance

SPI SNAPSHOT

NETWORK WITH THE ENTIRE SOLAR SUPPLY CHAIN

SPI attracts attendees and exhibitors from more than 24 verticals in the solar industry, including installers, contractors, energy storage, manufacturers, service providers, and utilities.

EXPERIENCE THE MOST CUTTING-EDGE CONTENT IN MORE WAYS THAN ONE

SPI offers a robust educational program including innovative sessions, in-depth workshops, sponsored trainings, and education in the exhibit hall. Whether you're a full conference attendee or an exhibitor, an installer or manufacturer, looking for NABCEP credit or the latest trend, our education and professional development program offers something for you.

DIG DEEPER INTO INDUSTRY HOT TOPICS:

- » Community solar
- » Energy storage
- » Intelligent buildings
- » Residential solar

NORTH AMERICA SMART ENERGY WEEK

September 10-13, 2017

SPI is the anchor of North America Smart Energy Week, which also includes Energy Storage International (ESI), Hydrogen + Fuel Cells North America, and the Smart Energy Microgrid Marketplace.

Energy Storage International

Co-located with SPI, Energy Storage International paves the way for synergy between energy storage and solar markets. As energy storage increases the power of solar by storing and releasing energy on-demand where it is needed on the grid, both utilities and others can take advantage of increased revenue and customer satisfaction. With over 115 exhibiting companies, ESI is the largest energy storage exhibition in North America.

Included in SPI registration

Exhibitors include:

- » Fronius
- » GS Battery USA Inc.
- » NEC Energy Solutions
- » S&C Electric Company
- » SolarEdge
- » Sonnen

Hydrogen + Fuel Cells North America

The organizers of the Group Exhibit Hydrogen + Fuel Cells + Batteries at HANNOVER MESSE announce their expansion to North America. After 23 years of experience with Europe's largest trade fair for hydrogen, fuel cells and batteries, it is now the time to bring that success to SPI. Hydrogen + Fuel Cell exhibitors and attendees will benefit from several synergy effects between the solar and energy storage industries.

In collaboration with:

Included in SPI registration

Exhibitors from the European Hydrogen conference include:

- » Daimler
- » Dana
- » FuelCell Energy
- » Hitachi Metals
- » Proton OnSite
- » Siemens

Smart Energy Microgrid Marketplace

The 2017 Smart Energy Microgrid Marketplace features a fully-functioning microgrid, energy management systems, automation products, electric vehicle charging stations, energy storage providers, and solar panel manufacturers—ultimately making the connection between solar power and smart products.

In collaboration with:

Included in SPI registration

Exhibitors include:

- » DOW
- » EnSync
- » Panasonic
- » Solarmass
- » Sunverge
- » Trinasolar

“The conference was well worth the time and financial investment.”
